## **1. OBJECT OF THE GAME/GAME DESCRIPTION**

This incredible story starts from a place deep inside the mountains, several thousand miles away from the city. Goku and Nora are on a mission to find seven crystal balls. Their trip is filled with adventure, action and thrills! They go through a desert, into caves, and battle monsters. But with the seven crystal balls in their possession, one wish they want will be granted to them by the Dragon Emperor. We wish them good luck!

Please read this Instruction Booklet carefully to ensure proper handling of your new game. Save the Booklet for future reference.

## PRECAUTIONS

1. Turn off the power when inserting or removing Game Pak.
2. This is a high precision game. It should not be stored in places that are very hot or very cold. Never hit or drop it. Do not take it apart.
3. Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game.
4. Do not clean with benzene, paint thinner, alcohol or other such solvents.

Note: In the interest of product improvement, Nintendo Entertainment System specifications and design are subject to change without prior notice. This game has been programmed to take advantage of the full screen. Some older models have rounded screens and may block out a portion of the image.

## 3. HOW TO PLAY THE GAME

PLAYER'S SCORE

GOKU'S REMAINING POWER

Player's Score and the Wind Wave Mark will appear alternately.

## GAME'S COMPONENTS

This is a great adventure game which is divided into two main stories.

Story 1—Goku and Friends (Stage 1—Stage 6)

Goku and friends are on a big mission to find and secure seven crystal balls. During this thrilling adventure, they meet Nora and Pudgy.

## Story 2—Mysterious Army's General Attack (Stage 7—Stage 10)

Goku's quest for the seven crystal balls begins again. There is a mysterious army blocking Goku's mission to find the crystal balls.

At the end of Story 1 and Story 2, the Dragon Emperor appears and grants Goku and Nora their wish.

The object of this game is to collect seven crystal balls. But Goku, in order to continue his long, adventurous trip, has to replenish his power by eating food, or to strengthen himself by using weapons. These food items, and other items that he can use to strengthen himself are sometimes in the enemy's hands, or hidden in secret places.

## ■ Bonus Characters—1

Special Magic Pole (Green)—Goku can use the extended Special Magic Pole for a limited time. Value: 2000 points.

Thunder Wave Mark (Green)—Goku can use Thunder Wave. Value: 5000 points.

\*Goku level of power is 100 at the start of the game, but as time passes, he gradually loses power.

■ This game consists of four different scenes.

## 1. TRAVELING SCENE

Goku travels to many different places looking for the crystal balls. On his journey he experiences many adventures. Goku has to try to get the least amount of damage from the enemy, and to maintain his power.

## 2. MYSTERIOUS SECRET SCENE

Somewhere in the Traveling Scene, there are secret passes, a Treasure House which contains various items, or the enemy's retreat.

## 3. COMIC BOOK STYLE TALKING SCENE

While Goku is traveling, he has many conversations with Nora, Pudgy and other people who provide him with very important information. Listen carefully to these conversations, since they contain some very helpful hints.

## 4. ACTION-PACKED FIGHTING SCENE

Goku fights desperately against the evil enemy characters. Many of them are just waiting for him, and setting up vicious traps.

## SECRET TECHNIQUES

1. Make sure that Goku finds the capsules.

Inside the capsules there are power foods which increase Goku's power. There are also other items such as Magic Poles and Wind Waves that assist him during his travels.

But be careful! The capsules sometimes contain enemies also.

2. Try to keep Goku's power level up.

Goku's power level is very important. At the start of the game, Goku's power level is 100, but as he gets hungry, or when he fights the enemy he gradually loses his power.

When Goku eats a drumstick he gains power worth 20 points, while the cake is worth 100 points. The maximum power that Goku can get is 150.

3. Smash the boulders.

During Section 1 entitled the "Turtle Hermit," Goku can not move forward because there is a large boulder blocking his way. If Goku keeps striking at the boulder, he should be able to smash it and may find something there.

## 4. Use Wind Waves carefully.

Wind Waves are very powerful weapons. The Turtle Hermit and Goku are the only ones who can use this technique. Make sure that Wind Wave is used only when this special technique can conquer the enemy. Remember, only Wind Waves can extinguish fires! Super Wind Wave, which is the powered up version of Wind Wave, enables you to shoot three Wind Waves in rapid succession. (With Super Wind Wave the following symbol will appear in the upper left hand corner of the screen:

## 5. Magic Pole.

This is the weapon which has two times more strength or power of destruction than the punch. The Magic Pole enables Goku to hit enemies that are further away, making it easier for Goku to beat them.

## 6. Sandwich.

By eating a sandwich, Goku can run much faster for a limited time.

## 7. Swift Cloud.

By riding on Swift Cloud, Goku can fly over to nearly the end of the scene. Try to find Swift Cloud when it appears suddenly on the Capsule Roulette.

## 8. King Minos' Trap.

In Section 6, "King Minos," during the action-packed fighting scene which is King Minos' trap, if Goku walks on top of the flame, he'll lose power rapidly, and his movements slow down! Be careful!

## 9. Pudgy.

In Section 2, "Pudgy," Goku has to find Pudgy who was transformed to a village girl. Since Goku cannot identify a boy or a girl, he has to attack everyone with a ? on their faces. Some people run away screaming, while others run after Goku.

## 10. Keys are very important.

Keys play a very important part in Goku's adventure. For example, in Section 2, "Pudgy," Goku has to make sure that he picks up all the keys that Pudgy has dropped, or

he'll have trouble later. Therefore, you have to make sure that as many keys as possible are picked up.

## 11. Run after the Rabbit Gang.

In Section 5, "Rabbit Gang," the Rabbit Gang has transformed Nora into carrots, and they've run away with one of the carrots as hostage. Even if Goku gets the four carrots, if he's missing the fifth carrot, he can't do anything to help Nora. Don't lose sight of the Rabbit Gang. But be careful, because if Goku touches a Rabbit Gang, he will turn into a carrot!

## 12. Hidden Caves.

There are sometimes hidden caves where rocks or trees are not aligned, or in some cases, in houses. Inside of these caves are capsules that contain weapons or power that will help Goku. But if Goku travels further on, there won't be any hidden caves in some scenes.

By using these secret techniques, I hope you can collect the seven crystal balls which will enable you to call

the Dragon Emperor. There are a lot of hardships awaiting you.  
Good luck!

## SECRET OF THE DRAGON

If Goku collects all seven crystal balls, the Dragon Emperor appears to grant him whatever wish he wants. Well, what kind of wish can he get?

## BEWARE! THE FOLLOWING ARE DEADLY.

1. When Goku loses all of his power.
  2. Falling into holes, etc. during the action-packed fighting scene.
- (The game ends if you make one of the above mistakes.)

- Note
- When Goku enters caves or houses, you have to stand right in front of the entrance, otherwise you can't enter. There are times when Goku can't enter at all.
  - When you want to go back, you can only go back in two moves vertical and horizontal.
  - Power of Magic Pole will disappear at the end of each stage, so Goku has to get new weapons at each new stage.
  - Keys and crystal balls are sometimes hidden in blocks or vases, so try to punch them whenever they appear.

## COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
